

Buffalo Bayou Inundation Map

August 30, 2017

0 0.5 Miles

This graphic represents an estimate of inundated areas, based on current reservoir release rates and no additional rainfall. It will be updated if and when release rates significantly change. The actual extent of inundation may vary due to local drainage infrastructure and other conditions. For real-time water surface elevations, visit the Harris County Flood Warning System webpage, www.harriscountyfws.org.
